Local Money Placed in New York on Demand.

there is a firm local demand for money, which it is expected will keep up until the first of the new year.

"There is plenty of money in Salt Lake at the present time," said a banker yesterday, "but in spite of that the money market is firm because of the generally conservative feeling as to making loans. The banks are desirous of keeplig their funds where they will be immediately available if needed and yet have them loaned out on first-class security. Locally, the demand is more for time loans, not less than thirty days.

Banks and others wishing to loan on call and to have the best security find limited opportunities here. In New York there is a broader market. During the last week the rate there has

ing the last week the rate there has been as high as 8 per cent, with gilt-edge security, on demand loans, although the average has been below that. This has been responsible for the movement of money from Salt Lake.

Demand For Money.

"There is a strong local demand at present, which is likely to keep up until Jan, 1, when everything is likely to be easier. The sugar companies are paying out large amounts for beets and labor, and they are calling on the banks to help furnish funds until the returns begin to come in Persil were returns begin to come in. Retail mer-chants are paying for their fall and holiday stocks, and are securing loans until about the first of the year. There are demands from stockmen, also, and from other sources which help to swell the total.

"On the whole, however, the local situation is good. Conditions are better in the east, and locally a great deal of improvement is in progress or prospect. Considerable amounts of money are being expended, business is on a more conservative and solid basis, nd the future looks good for Salt

Typographical Union Adopts Resolutions Affecting Newspaper.

The following resolution was passed by Salt Lake Typographical union No. 115, at meeting held Nov. 8, 1903:

Whereas, The Deseret Evening News of Salt Lake City, Utah, has always opposed organized labor and has upon many occasions and recently denounced unionism and the organization of labor, and by act as well as word the Deseret Evening News Jones what it could to embar-

leve, and upon when our organized built; and,
Whereas, Repeated attempts to unionize the said Deseret Evening News in times past have met with failure;
Resolved. That the Deseret Evening News of Sait Lake City be declared unfair, non-union and opposed to organized labor.

News of Salt Lake City be declared unfair, non-union and opposed to organized labor.

Resolved. That hereafter, or after due notice of this action has been served, the direct or indirect exchange of matrices, plates, type-matter, cuts and all other union-made matter be not permitted between the Tribune. The Herald, the Salt Lake Telegram, unlon daily newspapers, and the Deseret Evening News, non-union, shall be prohibted, and that there shall be no exchange of union production between any job printing establishment in Salt Lake City, employing union labor and the Deseret Evening News or any other non-union office; that no press work shall be done by the Deseret Evening News or any other non-union office, by any printing office in this city employing members of this union; and, Resolved. That the executive committee and the officers of this union use every means in their power to induce foreign and local advertisers to withdraw their patronage from the said Deseret Evening News until such time as the said office is declared union.

Resolved. That a copy of these resolutions be delivered to the Tribune. Mr. Whitney, business manager of the News, being shown the above, and asked for an expression of his views thereon, said:

"I think the resolutions speak for themselves, and if I wished unionism any harm—which I do not—could not ask anything betier than to have these resolutions given the widest publicity possible. They tell their own story and the spirit that is behind them.

"It is not true that the News has denounced unionism," or "done what it could to embarrass it. It has denounced the unlawful practices, the influence with men's liberty and with other people's business of which the members of some unions have been guilty and it will go on doing so. The News pays its men fair wages, and never asks them whether they are members of a union or not. We simply ask them to do their work in a workmanlike manner and would no more think of ordering them to keep out of a union than we would of ordering them to go into one and they are free agents.

"The custom of exchanging matrices, plates, cuts, etc., which has prevalled between the several newspapers is a matter of business courtesy and was adopted as a mutual convenience. If the other papers obey the orders of the union and decide on its discontinuance the News has no possible objection to urge.

"As for the boycotting proposition, I do not think it needs serious attention."

Modern Fable of the Girl Who Knew a Good Thing.

With Apologies to G. Ade.

Now there lived in a cosy flat, a sweet young thing of forty summers named Ada, who fooled the boys no end. They raved over her swell face and form (believing them natural), and swore that her baby accent was too cute for anything. She was a sharp one, and about as fast they they make 'em—decidedly not the kind to

and about as fast they they make 'em—decidedly not the kind to tie to.

After a few bars, the chappies would get dead on to her, then they would up and turn her down. But at last she got hold of a cad who seemed easy, and she gave him no rest. Little by little she hoped to get him off his base, and she did in a measure—but he was not such a slow boy as she thought, and had she not struck the right chord in his nature, it might have taken a long time to rake him in. As it was, she was a foxy girl, and when she found one day that he loved music passionately, she made a note of it. A short time after this, when they were out for a run together in his nobby cab, she murmured softly: "Ed, dear, did you know that my marriage dot is to be a Harvard piano?" As fast as possible he seized her hand. "Be mine!" he cried. "We will be poor, but the staff of life cuts no figure, if we have such a perfect pianoforte as that in the house."
